## SUMMARY

**Results-driven and detail-oriented Full Stack Engineer with a comprehensive understanding of JavaScript, TypeScript, Node.js, and React.js.** Proven track record of successfully integrating front-end designs with back-end functionality to create visually appealing, responsive, and user-friendly web applications. Adaptable professional with strong cross-functional collaboration, problem-solving, and debugging skills. Committed to continuous learning and staying up-to-date with industry trends. Passionate about contributing to innovative projects and driving business success.

## TECHNICAL PROFICIENCIES

**PROGRAMMING LANGUAGES:** JavaScript (ES6+, Node), TypeScript, Python 3, HTML5, CSS3/Sass

**FRAMEWORKS & LIBRARIES:** Express.js, React.js, jQuery, Bootstrap, Bulma

**TOOLS:** MongoDB, MySQL, Git, Netlify, Heroku, Vite, Webpack, Cloudinary, Linux

**SKILLS:** Full Stack Development, Database Management, Responsive Design, User Experience, Problem-Solving, Project Management

## KEY PROJECTS

### t'day

Mar 2021 - Present

- Develop and maintain a dynamic web application using a combination of front-end and back-end technologies.
- Utilized JavaScript, Node.js, and Express.js to build the server-side functionality of the application. Utilized MongoDB as the database for efficient data storage and retrieval. Integrated third-party APIs to enhance functionality and provide additional features.
- Created a platform that allows users to share and engage with content in a secure and anonymous manner. Implemented security measures and encryption to protect user privacy and data.
- Ensured a responsive design to provide a seamless experience across different devices.
- Implemented data visualization to provide users with meaningful insights.
- Iteratively refined functionality based on user testing and feedback to ensure a seamless and user-friendly application.

### YelpCamp

Apr 2021 - May 2021

- Developed and launched "YelpCamp", a robust CRUD platform that enables users to submit and manage ratings, profiles, and comments for campgrounds across various locations.
- Integrated advanced functionalities such as geolocation through Mapbox API and implemented secure user authentication and authorization using Passport.js, ensuring data security.
- Optimized user experience by leveraging EJS for layout design and utilizing Cloudinary API for efficient image storage, enhancing overall performance and usability.
