

# ENEDA XHAMBASI

FULL STACK WEB DEVELOPER

**Email:** enedaxhambazi@gmail.com | **Phone:** 201-956-1998 | **Location:** Manchester, NH, 03104

**Portfolio:** [eneda.dev](https://eneda.dev) | **LinkedIn:** [linkedin.com/in/eneda](https://linkedin.com/in/eneda) | **Github:** [github.com/eneda8](https://github.com/eneda8)

## SUMMARY

**Innovative and detail-oriented professional with an administrative background and a deep understanding of front-end and back-end technologies gained through multiple online courses, bootcamps, and projects.**

Competent in building responsive web applications by using a range of programming languages and frameworks. Proven ability to design intuitive user interfaces and optimize database performance. Adept at collaborating with cross-functional teams to deliver high-quality solutions. Skilled in problem-solving and debugging, with a keen attention to detail. Committed to staying updated on industry trends and continuously enhancing skills. Passionate about contributing to innovative projects and driving business success.

## TECHNICAL PROFICIENCIES

**PROGRAMMING LANGUAGES:** JavaScript (ES6+, Node), TypeScript, Python 3, HTML5, CSS3/Sass

**FRAMEWORKS & LIBRARIES:** Express.js, React.js, jQuery, Bootstrap, Bulma

**TOOLS:** MongoDB, Git, Netlify, Heroku, Vite, Webpack, Cloudinary

**SKILLS:** Full Stack Development, Database Management, Responsive Design, User Experience, Problem-Solving, Project Management

## KEY PROJECTS

**t'day** Mar 2021 - Present

- Develop and maintain a fully responsive social networking site, utilizing JavaScript, Node, and Express, with MongoDB as the database for seamless data management and visualization.
- Implement an innovative anonymous online journal platform, "t'day," enabling users to rate their daily experiences on a scale of 1-5, post and comment on public entries, and view real-time aggregate average rating scores.
- Integrate RESTful APIs, including Cloudinary API for image storage and Twilio's SendGrid API for email notifications.
- Additional Features:** Private user profiles with post/comment history, bookmarks, comprehensive search page, private, encrypted journals, and both user-specific and collective charts pages displaying ratings data.
- Links:** [tday.co](https://tday.co) | [github.com/eneda8/tday](https://github.com/eneda8/tday)

**YelpCamp** Apr 2021 - May 2021

- Developed and launched "YelpCamp", a fully responsive CRUD platform for users to submit 1-5 star ratings for campgrounds across the country, manage campground profiles, and comment on others' profiles.
- Integrated advanced functionalities into YelpCamp, including geolocation via Mapbox API, and implemented secure user authentication and authorization using Passport.js for enhanced data security.
- Utilized EJS for layout design and leveraged Cloudinary API for efficient image storage, optimizing overall user experience.
